

Senior / Principal Environmental Consultant

Naturally Compliant has a strong history of supporting the development of renewable and energy transition projects. We are a forward-thinking UK company at the forefront of the environmental and construction sector, and we have an opportunity for a Senior / Principal Environmental Consultant to join our growing team.

Salary: £35,000-£50,000 depending on experience.

Job type: Full-time

Location: Yorkshire/Lancashire (Office/WFH with frequent on-site visits)

The role

As we embark on our ambitious growth journey, we are looking for a proactive, resilient individual to support the successful delivery of our client's projects, such as the [Eastern Green Link 2 \(EGL2\) project](#).

As the successful candidate, you will play a pivotal role supporting the post planning consent and construction phases. The role will include both office-based activities and site support, which will evolve as the project progresses. You'll have a weekly presence on site, providing site based environmental auditing and assurance services. This dual-role position requires a blend of technical expertise, analytical skills, and hands-on experience to promote compliance with environmental regulations and promote sustainable practices.

Responsibilities

Included but not limited to:

- Support our client's environmental management teams where required
- Provide advice on construction phase environmental management and compliance with environmental legislation, contractual requirements and raise awareness of environmental obligations
- Review environmental plans, documentation and compile environmental KPIs
- Ensure CEMPs and environmental plans are periodically reviewed and updated
- Undertake site-based inspections to ensure compliance with environmental standards and requirements including weekly routine audits
- Monitoring of site activities and works to ensure that environmental mitigation measures are implemented
- Provide support for both the onshore and nearshore elements of the project and provide assurance that all specific environmental and sustainability requirements are correctly implemented on site.

About you

Experience: 4 years' proven experience in a similar multi-environmental disciplinary role with project management and onsite construction phase support experience.

Skills: Great interpersonal and communication skills, with an innate ability to persuade and build strong client relationships. Able to communicate complex environmental issues in a clear and concise manner.

Knowledge: A clear understanding of the environmental and construction sector. Familiarity with offshore/marine planning elements desirable.

Attributes: Self-motivated, results-driven, and happy to work flexibly.

Commitment: Ready to successfully deliver outstanding support to enable our client to achieve their goals.

Certification: A relevant CSCS card and a full UK driving license.

Why join us

Impactful work: Make a tangible difference in promoting sustainable practices and raising standards within the environmental and construction sectors.

Flexibility: Enjoy remote/flexible working (subject to project requirements), allowing for a perfect work-life balance.

Professional growth: We value and support continuous learning and CPD. Our collaborative environment encourages knowledge sharing and mentorship.

Reward: Benefit from a competitive salary, site-based bonus and 5% matched pension contribution alongside a range of other benefits.

Equality: We are an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

Apply today

If you are driven to make a difference and passionate about elevating environmental performance in the environmental and construction sector, we'd like to hear from you.

Join us in shaping a sustainable future, one project at a time.
